WHAT I LEARNED

Ready to Print

Mother's Day is a special day when we celebrate and appreciate our moms. It usually falls on the second Sunday of May every year. On Mother's Day, children often give their moms cards, flowers, or homemade gifts to show how much they love and care for them. Families may also spend time together, doing activities like cooking a meal for Mom or going on a picnic. It's a day to say thank you to moms for all the love and hard work they put into caring for their children.

What You have learned so far?

WHAT I LEARNED

1. On which day does Mother's Day usually fall every year?

2. What are some common gifts children give to their moms on Mother's Day?

3. Name two activities families might do together on Mother's Day to celebrate.
