## READING COMPREHENSION

**NO-PREP &  
EDITABLE**

**EXTINCTION**  
Sadly, dinosaurs aren't around anymore. Some believe they went extinct around 65 million years ago.

**DINOSAUR DAY**  
Welcome to Dinosaur Day! Are you ready to travel back in time to when dinosaurs ruled the Earth? Put on your explorer hats and get ready for a roaring adventure!

**COVERING DINOSAURS**  
Dinosaurs lived millions of years ago. They were incredible creatures that came in all shapes and sizes. Some were small like others were as big as buildings! Scientists study fossils, which are the remains of dinosaurs, to learn more about them.

**DINOSAURS**  
Dinosaurs came in all shapes and sizes. Some were fearsome predators, like the T-Rex, with its sharp teeth and powerful jaws. Others, like the Stegosaurus, were peaceful plant-eaters, using their long necks to reach leaves high up in the trees. Each type of dinosaur had its own special features that helped it survive in its environment. From the armored plates of the Stegosaurus to the speedy legs of the Velociraptor, there was a dinosaur for every niche in the prehistoric world.

**DINOSAUR NAMES**  
Dinosaur names can be tricky to pronounce, but they're also lots of fun! Can you say Triceratops or Stegosaurus? These names often describe something about the dinosaur, like how many horns it has or the shape of its body.

**LIFE OF A DINOSAUR**  
Imagine what it would be like to live in a world full of dinosaurs. They lived in all kinds of environments, from forests to deserts. Some walked on two legs, while others walked on four. They spent their lives eating, growing, and taking care of their young.

### SHORT ANSWER QUESTIONS

1. What are Fossils, and how do s
2. Name one meat-eating dinosaur passage.
3. Why do scientists believe dinosaur
4. How can you celebrate Dinosaur
5. What is one unique feature of mentioned in the passage?

6. What is one feature of the Tyrannosaurus Rex?  
a) Long neck  
b) Sharp teeth and powerful jaws  
c) Armored plates  
d) Speedy legs

7. Which dinosaur is known for its arms?  
a) Triceratops  
b) Brachiosaurus  
c) Stegosaurus  
d) Velociraptor

8. What type of dinosaur is the Brachiosaurus?  
a) Meat-eater  
b) Plant-eater  
c) Both a and b  
d) None of the above

9. What can you do to celebrate Dinosaur Day?  
a) Visit a museum  
b) Read dinosaur books  
c) Dress up as your favorite dinosaur  
d) All of the above

10. How long ago did dinosaurs go extinct?  
a) 100 years ago  
b) 1 million years ago  
c) 65 million years ago  
d) 100 million years ago

## ANSWER KEY

### MCQS:

1. a) By studying Fossils
2. a) A type of plant-eating dinosaur
3. c) Both a and b
4. c) The amazing creatures that once roamed the Earth
5. c) To reach leaves high up in the trees
6. b) Sharp teeth and powerful jaws
7. c) Stegosaurus
8. b) Plant-eater
9. d) All of the above
10. c) 65 million years ago.

### SHORT-ANSWER QUESTIONS:

1. Scientists use fossils, which are the remains of dinosaurs, to learn more about them.
2. Tyrannosaurus rex.
3. Scientists believe dinosaurs went extinct due to factors like changes in climate and giant asteroids hitting the Earth.
4. You can celebrate Dinosaur Day by visiting a museum, reading dinosaur books, or dressing up as your favorite dinosaur.
5. The Brachiosaurus had a long neck to reach leaves high up in the trees.
