## RECYCLING & REDUCING

## READING COMPREHENSION

**NO-PREP & EDITABLE**

**BENEFITS OF REDUCING WASTE**  
Reducing waste has many benefits! It saves money by buying and throwing away less. It also reduces pollution. By making a change, we can make a big impact.

**RECYCLING AND REDUCING WASTE**

In our everyday lives, we use many things like plastic bottles, paper, and packaging. But did you know that a lot of these things can be recycled instead of being thrown away? Let's learn about recycling and how we can reduce waste to help our planet.

**THE IMPORTANCE OF RECYCLING**  
Recycling is important because it helps us use fewer resources and reduces pollution. When we recycle materials like paper, plastic, glass, and metal, they can be turned into new products instead of ending up in landfills. This saves energy and helps protect the environment.

**WHAT CAN BE RECYCLED?**  
Many things can be recycled! Paper, such as newspapers, magazines, and cardboard boxes, can be recycled into new paper products. Plastic bottles, containers, and bags can be recycled into new plastic items. Glass bottles and jars can be recycled over and over again. Aluminum cans and foil can also be recycled and turned into new products.

**HOW TO RECYCLE**  
Recycling is easy! All you need to do is put your recycling in the right bin instead of the trash. Make sure to rinse out containers before recycling them to avoid contamination. Then, you can take them to a recycling center where they'll be recycled.

**REDUCING WASTE**  
From recycling, we can cut down waste by making smart choices when shopping, such as opting for reusable items and buying in bulk.

## RECYCLING AND REDUCING WASTE

In our everyday lives, we use many things like plastic bottles, paper, and packaging. But did you know that a lot of these things can be recycled instead of being thrown away? Let's learn about recycling and how we can reduce waste to help our planet.

### THE IMPORTANCE OF RECYCLING

Recycling is important because it helps us use fewer resources and reduces pollution. When we recycle materials like paper, plastic, glass, and metal, they can be turned into new products instead of ending up in landfills. This saves energy and helps protect the environment.

### WHAT CAN BE RECYCLED?

Many things can be recycled! Paper, such as newspapers, magazines, and cardboard boxes, can be recycled into new paper products. Plastic bottles, containers, and bags can be recycled into new plastic items. Glass bottles and jars can be recycled over and over again.

Foil can also be recycled and turned into new products.

### HOW TO RECYCLE

Recycling is easy! All you need to do is put your recyclable items in a recycling bin instead of the trash. Make sure to rinse out containers and bottles before recycling them to avoid contamination. Then, your recyclables will be collected and taken to a recycling center where they'll be sorted and processed.

### REDUCING WASTE

Apart from recycling, we can cut down waste by using less and making conscious choices when shopping, such as opting for reusable bags and products with minimal packaging or buying in bulk.

Editable

### BENEFITS OF REDUCING WASTE

Reducing waste has many benefits! It saves money because we're buying and throwing away less. It also helps conserve resources and reduces pollution. By making small changes in our habits, we can make a big difference in reducing waste and protecting our planet.

### TAKING ACTION

As individuals, we all have a role to play in recycling and reducing waste. By recycling materials and being mindful of our consumption habits, we can help create a cleaner and healthier environment for ourselves and future generations.

### CONCLUSION

Recycling and reducing waste are simple but important ways we can all help protect our planet. By understanding the importance of recycling and making small changes in our daily lives, we can make a big impact. Let's work together to recycle more and waste less!

## RECYCLING AND REDUCING WASTE

DIRECTIONS CHOOSE THE CORRECT ANSWER.

### 1. What is suggested as a way to reduce waste?

- a) Recycling only
- b) Using more plastic bags
- c) Bringing reusable bags when shopping
- d) Buying single-use items

### 2. How can individuals reduce waste when shopping?

- a) By using more plastic bags
- b) By buying items with excessive packaging
- c) By bringing reusable bags
- d) By ignoring the amount of waste produced

### 3. What is recommended instead of using plastic bags when shopping?

- a) Bringing reusable bags
- b) Bringing more plastic bags
- c) Bringing paper bags
- d) Not bringing any bags

### 4. What type of products are suggested to reduce waste?

- a) Products with excessive packaging
- b) Products with minimal packaging
- c) Products in single-use containers
- d) Products wrapped in plastic

### 5. How can buying items in bulk help reduce waste?

- a) It increases waste
- b) It reduces waste
- c) It has no impact on waste
- d) It makes waste management easier

### SHORT ANSWER QUESTIONS

1. How can individuals reduce waste when shopping?
2. What is suggested as an alternative to plastic bags?
3. What type of products are recommended to reduce waste?
4. How can buying items in bulk help reduce waste?
5. What is the main focus of the paragraph?

### 6. What is the main focus of the paragraph?

- a) Recycling only
- b) Reducing waste
- c) Using more plastic
- d) Buying single-use items

### 7. What is the suggested alternative to shopping?

- a) Using more plastic bags
- b) Using paper bags
- c) Using reusable bags
- d) Not using any bags

### 8. What is the benefit of choosing products with minimal packaging?

- a) It creates more waste
- b) It reduces waste
- c) It has no impact on waste
- d) It makes products more expensive

### 9. How can individuals be more mindful of packaging?

- a) By not paying attention to packaging
- b) By buying products with excessive packaging
- c) By choosing products with minimal packaging
- d) By buying single-use items

### 10. What is the importance of reducing waste?

- a) It increases pollution
- b) It saves money and resources
- c) It has no impact on the environment
- d) It makes waste management more difficult

## ANSWER KEY

### MCQS

1. c) Bringing reusable bags when shopping
2. c) By bringing reusable bags
3. a) Bringing reusable bags
4. b) Products with minimal packaging
5. b) It reduces waste
6. b) Reducing waste
7. c) Using reusable bags
8. b) It reduces waste
9. c) By choosing products with minimal packaging
10. b) It saves money and resources

### SHORT-ANSWER QUESTIONS

1. By using less and being mindful of what they buy.
2. Bringing reusable bags when shopping.
3. Products with minimal packaging.
4. Buying items in bulk can reduce waste.
5. The main focus of the paragraph is on reducing waste by using less and making conscious shopping choices, such as opting for reusable bags and products with minimal packaging or buying in bulk.
